Dear Mrs Chapman

I do not know
what became of your letter
ten days ago, I received
the one of the 15th this
morning. Would be very
glad to come in and talk
with you about the possible
trip to Europe, but have a
very sick little boy over
here and cannot leave

long enough to go in
town. I do think there
would be more or less
risk in taking the baby
when he is teething, where
his food would necessarily
have to be changed very
often, the frequent changes
of food would be felt
by any baby, but by one
getting teeth I think it
would be very keenly felt.
Why do you not ask

Dr. Griffith for advice? I think he
is quite Capable of deciding the
matter for you. I shall call and
see you and Mrs Chapman
the first opportunity I have.

I of course would be very glad to
accompany you and Mrs C. if
the trip could be arranged, but
certainly would not consider it
unless you know the baby is in
first class physical condition.

Hoping you are all well, and I shall
see you in the near future

Believe me most sincerely

Anna Nicholson.
